**Applicable Products**
MGate 5109, MGate 5109-T

**Supported Operating Systems**
N/A

**New Features**
- Supports new hardware rev. v1.1.0.
- Supports Accessible IP additional restrictions.

**Enhancements**
N/A

**Bugs Fixed**
N/A

**Changes**
N/A

**Notes**
N/A
**Bugs Fixed**
- AutoDetection in MB transparent page may be blocked when the window is closed.
- Counter/Frozen Counter in DNP outstation diagnose page only showed 32-bit format. Now it may show 16bit or 32bit by config.
- When using the wizard to set DNP3 config, part of the config items would be set to 0.
- Byte order between Modbus and DNP3 does not match.
- Even though the length of the Modbus master command is smaller than DNP3 outstation point, user is allowed to create a mapping between the command and the point.
