Supported Operating Systems

New Features
N/A

Enhancements
Upgraded OpenSSL Library.

Bugs Fixed
• Fixed the network timeout issue in NPort Windows Driver Manager.
• TCP port 60950 and 60966 are occupied even when not in use.
• Serial port mapping might fail on some antivirus software.

Changes

Notes
This version is divided into two separate drivers (v2.0 and v3.0) to support different Windows platforms.
